

Surgical Categories

The purpose of Surgical Categories in FOTO is to designate patients who are being seen post-operatively. These variables are used in the patient-level predictive analytics and aggregated risk adjusted comparative reporting.

Surgical Categories are available during patient episode set up in the Orthopedic care type. First select the relevant Body Part/Condition, then select the Impairment category for Post-surgical procedures: Musculo-skel. **IMPORTANT:** be sure to record the date of surgery; if this is not known at intake, the date can be entered at any time before episode discharge.

Example:

Care Type:	Orthopedic	?
Body Part/ Condition:	Lumbar Spine	
Impairment:	Post-surgical procedures: Musculo-skel, Sys	?
Surgery Type:	Fusion single level	
Date of Surgery:	06/14/2021	MM/DD/YYYY

Table of Contents (TOC)

Surgical Categories.....	1
Ankle	3
Elbow	4
Foot.....	6
Forearm	7
Hand	8
Hip.....	9
Knee	10
Lower leg (w/o Knee)	11
Lumbar	12
Neck	13
Orofacial	14
Shoulder.....	15
Thoracic	16
Upper arm.....	17
Upper leg	18
Wrist	19

Ankle

Achilles Tendon Repair
Ankle Reconstruction
Anterior Tibialis Repair
Arthroscopy/ATS
Calcaneal FX
Compartment syndrome
Hardware Removal (internal fixation)
Lateral Ligament Repair
Medial Ligament Repair/Reconstruction
Non-Traumatic Amputation
ORIF (Open Reduction Internal Fixation)
Osteo Chondral Lesion
Peroneal tendon repair
Posterior tibialis tendon repair
Surgical Ankle Fusion
Tarsal Tunnel Release
Tib/Fib (Bimalleolar) FX
Total Ankle
Trimalleolar FX

Elbow

Arthroscopy
Cubital Tunnel Release
Dislocation
Distal Biceps Tendon Repair
Elbow plating
Hardware Removal (internal fixation)
Humeral bone graft
Lateral/Medial Epicondyle Release
ORIF (Open Reduction Internal Fixation)
Radial Head Replacement
Radial Head Resection
Tendon Release
Total Elbow Arthroplasty
Triceps Repair
Ulnar Nerve Transposition or Decompression (Cubital Tunnel)
Ulnar/Medial Collateral Ligament Reconstruction

Foot

Amputation: Non-Traumatic
Amputation: Trans-metatarsal
Arthrodesis
Arthroplasty
Bunionectomy
Compartment Syndrome Release
Fusion
Hallicus Valgus Surgical Corrections (Soft Tissue procedure)
Hardware Removal (internal fixation)
Neuroma excision
ORIF
Osteotomy
Pes planus correction
Plantar fasciotomy

Forearm

Amputation: Non-Traumatic
Amputation: Trans-radial
Amputation: Wrist disarticulation
Compartment Release
Hardware Removal (internal fixation)
Lipoma Excision
Radial Nerve Decompression
Tendon Release
Tendon Repair
Volar Plating

Hand

Amputation w/ray resection
Amputation: DIP
Amputation: Finger
Amputation: MCP
Amputation: Non-Traumatic
Amputation: PIP
Carpal Tunnel Release
CMC arthroplasty
Compartment Release
Digital Nerve Repair
Dupuytren's Fasciotomy
Foreign body excision
Fracture with ORIF
Fracture with Tendon/Nerve/Vascular Involvement
Game Keepers Thumb
Ganglion Excision
Guyon's Tunnel Release
Hardware Removal (internal fixation)
Joint Contracture Release
Joint Fusion
Mallet Finger
MP Arthroplasty
Multiple Tendon Repair (flexor/extensor or multiple fingers)
PIP Arthroplasty
Radial Collateral Ligament Repair
Skin Graft
Tendon Release
Tendon Repair: Extensor Tendon
Tendon Repair: Flexor tendon
Tendon Transfer
Tenosynovectomy
Trigger finger release
Volar Plate Repair
Wound Closure/Complicated

Hip

Arthroscopy, Labral Debridement or Repair
Femoral head osteoplasty
Femoral Osteo Chondroplasty
Femur Fracture
Hardware Removal (internal fixation)
Hip Fracture
Hips Resurfacing
IM Rodding
ORIF
Proximal Hamstring
Total Hip Arthroplasty

Knee

ACL & Meniscus Repair
ACL Reconstruction
Arthroscopic debridement
Chondral procedures (transplantation, implantation, microfracture)
Chondroplasty
Hardware Removal (internal fixation)
Lateral Release
Manipulation
MCL Repair/Reconstruction
Medial Femoral Ligament Repair
Meniscus Repair (Med and/or Lat)
Meniscectomy
Multi-ligament Repair (ACL, MCL, PCL)
Non-Traumatic Amputation Lower Leg Including Knee
ORIF
Partial Knee Replacement
Patella ORIF
Patellar Tendon Repair
PCL Repair/Reconstruction
Quad tendon rupture
Tibial Osteotomy
Tibial Plateau Fx s/p ORIF
Total Knee Arthroplasty

Lower leg (w/o Knee)

Amputation: Ankle Disarticulation

Amputation: Non-Traumatic

Amputation: Trans-tibial

Arterial bypass

Compartment Syndrome Release

Graft reconstruction

Hardware Removal (internal fixation)

ORIF

Vascular stenting/angioplasty

Lumbar

Discectomy
Discectomy w/Microdiscectomy
Foraminotomy
Fusion multilevel
Fusion single level
Hardware Removal (internal fixation)
Kyphoplasty
Laminectomy
Laminectomy w/foramenectomy
Lumbar Disc Replacement
Scoliosis Surgical Procedures

Neck

Anterior Cervical Fusion single level
Anterior Cervical Fusion, multi-level
Cervical Disc Replacement
Cervical Fusion, Other
Discectomy
Discectomy w/Microdiscectomy
Foraminotomy
Laminectomy
Laminectomy w/foramenectomy

Orofacial

Arthroscopy/Arthrocentesis

Mandibular re-alignment

Occlusal adjustment

ORIF (open reduction internal fixation)

Radical neck dissection

Total joint replacement TMJ

Shoulder

AC Reconstruction
Amputation: Shoulder Disarticulation
Anterior Plication
Biceps Tenodesis (bony fixation; soft tissue fixation)
Clavicular Fracture
DCR
General Scope/Debridement
Greater Tuberosity Fracture
Humeral bone graft
Humeral Head Fracture
Instability: Bankart Repair Arthroscopic
Instability: Open Procedures (Eg, Bankart)
Instability: Thermal Shrinkage or Capsular Shift
Labral Repair
Lesser Tuberosity Fracture
Manipulation under anesthesia
Manipulation with capsular release
Mastectomy
Mastectomy (bilateral)
Pectoralis major tendon repair
Proximal Humerus Fracture: Closed Reduction and Fixation
Proximal Humerus Fracture: Intramedullary Rod
Proximal Humerus Fracture: Open Reduction Internal Fixation
Reverse Total Shoulder
Rotator Cuff complicated with acromioplasty
Rotator Cuff Repair – < 3 cm tear
Rotator cuff Repair – > 3 cm tear
Rotator Cuff Repair complicated with Biceps tenodesis
Rotator Cuff tear – size unknown
SAD
SLAP
Thoracic Outlet surgery
Total Shoulder Replacement
Unreparable Rotator Cuff Lateral Transfer

Thoracic

Discectomy
Discectomy w/Microdiscectomy
Foraminotomy
Fusion, multi-level
Fusion, single level
Hardware Removal (internal fixation)
Laminectomy
Laminectomy w/foramenectomy
Scoliosis-related surgery (rod placement)
Vertebroplasty

Upper arm

Amputation: Elbow Disarticulation
Amputation: Shoulder Disarticulation
Amputation: Trans-humeral
Biceps Repair
Compartment syndrome
Hardware Removal (internal fixation)
Humeral bone graft
Non-Traumatic Amputation
Proximal Humerus Fracture: Closed Reduction and Fixation
Proximal Humerus Fracture: Intramedullary Rod
Proximal Humerus Fracture: Open Reduction Internal Fixation

Upper leg

Amputation: Hip Disarticulation
Amputation: Knee Disarticulation
Amputation: Trans-femoral
Closed femur fracture
Graft reconstruction
Hardware Removal (internal fixation)
Other: Hardware Removal
Proximal Hamstring

Wrist

Amputation: Non-Traumatic
Arthroscopy w/Debridement
Carpal Tunnel Release
Compartment syndrome
Dequervain release
Distal Radius FX
Dorsal Wrist Plating
Ganglion excision
Guyon's Tunnel Release
Hardware Removal (internal fixation)
Ligamentous Repair
ORIF (Open Reduction Internal Fixation)
Partial Wrist Fusion
Pisiform Excision
Proximal Row Carpectomy
Tendon Release
Tendon Repair
Tendon Transfer
TFCC Repair
Total Wrist Fusion
Ulnar Shortening Osteotomy
